The Honorable Ann McLane Kuster
320 Cannon House Office Building
Washington, DC 20515

Dear Congresswoman Kuster:

Thank you for your co-sponsorship of the Recovering America's Wildlife Act. The Forest Society appreciates your support of the bill and your efforts to strengthen the country's investments in conservation and natural infrastructure.

The New Hampshire Fish and Game Department is one of the Forest Society's key conservation partners. Over the years, the Department, through important programs like the Wildlife Habitat Fund and the Fisheries Habitat Fund, has helped the Forest complete a number of important land protection projects, including our 2,128-acre Washburn Forest in Clarksville and the 2,300-acre Moose Mountains Reservation in Middleton and Brookfield. In fact, in 2009 we honored the New Hampshire Fish and Game Department with a Conservation Partners Award.

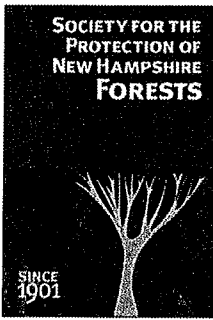

The Recovering America's Wildlife Act will help NH Fish and Game fully implement the New Hampshire Wildlife Action Plan (WAP). As you know, the purpose of the WAP is to assess the health of our state's wildlife and their habitats, identify key threats, and outline the actions needed to conserve fish and wildlife over the long term.

In real terms, if the bill is signed into law, New Hampshire Fish and Game will receive up to \$11 million each year. That represents a significant increase in available resources to support the on-going local and state efforts to help wildlife and habitats at risk.

Thank you for your support of the Recovering America's Wildlife Act. We look forward to helping you secure its passage.

Sincerely,

Matt Leahy
Public Policy Director
Society for the Protection of New Hampshire Forests
