Matt Tarr

Extension Associate Professor/Wildlife Specialist
Forestry and Wildlife Resources
University of New Hampshire Cooperative Extension

The Mitchells and wildlife specialist Matt Tarr will lead the morning property tour, which will include a discussion of habitat management projects on the property. We will visit an area cleared for future woodcock nesting as well as an abandoned beaver pond.

Afterwards, Nanci will explain how the Mitchell's conservation easements fit within the conservation vision of the Belknap Range Conservation Coalition. The optional rigorous afternoon hike will take us to the top of Piper Mountain, which affords panoramic views.

Dress for walking in woods and fields
Bring picnic lunch and water bottle
